

# COLLECTOR INDUCTION

## Belt conveyer

● **Mechanische Studien**

● **Realisierungen**

○ **Verkabelung**

○ **Steuerungen**

The unit is used **to heat manifolds** for the automotive industry.

This design accommodates **two heating inductors** mounted in series with their two power sources (not produced by Cerest), as well as the entire water cooling system.

A **Kevlar belt** conveyer is installed in the spiral inductors.

**Heating** is carried out in continuous flow on a **6 m long conveyer** at a speed of 0.27 m/s.

A **camera** monitors the temperature of the parts.

The operator has a **monitoring screen**.

FEATURES :

- **Length 6333 mm**
- **Depth 1700 mm**
- **Height 1500 mm**
- **Heating Temperature 260°C**

Ref : 3712
