

## Welding spot tooling

● Mechanical engineering

● Realizations

○ Cabling

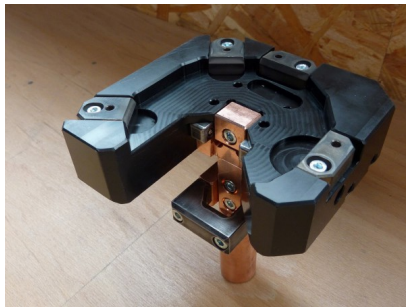

○ Machines

This tool allows the positioning, including keying, of the components to be assembled on a resistance spot welder (Customer supply).

Particular attention has been paid to ergonomics (finger passage, component holding ball, etc.) as well as to the cost of use (electrode design ...).

SPECIFICATIONS :

- **Special adapted design**
- **CuCr1Zn electrode**
- **Water cooling**

Reference : 3296

Project added the 11/08/20
